

The Unified 1U Server with RPS delivers a compact and Versatile server at an affordable price. Deploy the portable form factor in small, remote or branch offices, as a compact yet powerful point of sale platform in transport, retail and hospitality environments, or as a flexible configuration for customization in space constrained environments of military and government customers. Unified blends performance, reliability and manageability. This 1 socket, 1U server powered by Intel Xeon E processors provides unique enterprise-class capabilities at a great value—making it an ideal rack server platform for growing businesses, enterprises, and service providers. Outstanding configuration flexibility caters to a variety of business requirements and a range of Connect Qualified Options to fit most needs.

Specifications of Connect 1U Server with RPS

- 1000W Redundant Power Supply.
- 2 USB 3.0 Port.
- VGA port
- Two NIC Port (1 GB)
- 4 USB 3.0 Port.
- Slot 1 PCIe 3.0
- Power Button
- Restart Button
- LEDs of NIC and Hard disk
- Available in Customized Requirement

(\*available 8/6/5/4/2 series, HDD, SAS, RAID Controller)

Features of Connect 1U Server with RPS

- New 300W Redundant Power supply with High power efficiency.
- Unified 1U Server is a short-depth chassis of 15.05 inch providing mobility and easy deployment in a wide variety of environments.
- Unified IU Server has great quality and design features that are a hallmark of the XEON family such as tool-less access to system components and enhanced service ability.

Technical specifications

Model Name	Connect US 1000RPS
Server Board Specifications	Board Dimensions: 400*435*45mm (HxWxD)
Server Description	1U Rack Mountable with slider
Processor Family	Intel Xeon E-2100/2200 series
Processor Core	Available 8 or 6 or 5 or 4 or 2
Processor cache	Upto 16 MB L3
Processor Speed	Up to 4.0 Ghz
Maximum memory	64 GB
